

Issue Report

Product:	PMail	Report Date:	21.05.2024
Issue Summary:	There is no warning when discarding data		
Version/ Found on	v1.2, in 21.05.2025		
Hardware/Software configuration:	Windows 10 system, Chromium browser, using the deployed application		
Importance/ Severity:	<div>Minor</div>		
Reported by :	ABN Team		
Issue type:	defect		
Steps:	<div>1. Go to https://pmail.laurcons.ro/</div> <div>2. Log out if necessary</div> <div>3. On the login page enter a username and password</div> <div>4. Switch to the register page</div>		
Expected output:	The username and password should not be copied to the register page.		
Actual output:	The username and password are discarded		
Screenshots:	<div></div> <div></div>		

Other details/remarks:

The users might expect to register with the username and password they typed on the login page. Instead, when they click the register button, they are redirected to a new page and the data is discarded.
